Last Updated 29, Jan. 2008

AGRC is now hosting an interactive map website entitled State of Utah Survey Control Information Viewer. the URL for site is: <http://atlas.utah.gov/surveycontrol>.

The purpose of this site is to publish control and PLSS Corner information in the State of Utah. Much of the control has been established by the BLM to support parcel mapping and corner remonumentation activities. Other Control has been provided by private land surveyors, other counties and state agencies.

The viewer is a map based presentation of the control points to assist with the discovery of control stations and to assess the quality of the control.

Additional points have and will continue to be added by data contributors.

We are currently soliciting feedback on the usability of the site. Please send comments to sfernandez@utah.gov.

Website Questions:

Important Website Information:

- This site must be viewed with Microsoft Internet Explorer.
- It will take some time to download the initial site.
- Save this page in your favorites list. Do not save (bookmark) the map viewer page as this will not refresh the system properly.
- If you are having problems with the site, please contact Karen Holt. In your message, include the following information:
 - Type of browser and version number. (eg. IE 5.5, IE 6.0)
 - Describe in as much detail as possible what you were doing before the problem occurred; which tool you were using (eg. zoom, identify, zoom to township/range) , what data you were viewing.
 - Copy and paste any error messages you may have received into your message.
 - If you are requesting a functionality enhancement, describe how it will help this system.
 - If you find a feature confusing, please describe how we can make it easier to understand.
 - Send all website feedback to Karen Holt, kholt@landuse.com

Important Data Information:

- The control points in this version have been provided by the BLM.
- If you have comments regarding the data or would like to add your own data contact Sean Fernandez PLS, State of Utah Cadastral Surveyor (sfernandez@utah.gov).
