Last Updated 14, Feb. 2008

Google Maps just released its StreetView functionality for the Salt Lake City area and much of the Wasatch Front. Streetview is integrated into Google maps and allows viewing and navigating within 360-degree scenes of street-level imagery.

Read my blog post for more information, or better yet try it out yourself and let me know what you think.

More information: [Google Street View](#) and the [Google Maps & Earth team weblog](#).
