Last Updated 28, Mar. 2008

The following update has been made to GIS data residing on the State Geographic Information Database's ArcSDE server, [gdb92.agrc.utah.gov](http://gdb92.agrc.utah.gov) (v9.2):

The SGID U024.Transportation.StatewideStreets feature class has been updated in SDE (see [Read More](#)). Shapefiles and File-Based Geodatabase files for StatewideStreets are also available for download on AGRC's ftp site.

The update includes:

Beaver: private property attribute in S\_JURIS field populated on ~ five features; updated new alignment of State Route 21 in Milford

Box Elder: topology corrections; CFCC field improvements; major highway attribute improvements

Davis: topology corrections; major highway attribute improvements; missing S\_TYPE populated in Layton area

Duchesne: geocoding improvements in Fruitland area

Grand: updated entire dataset; geocoding improvements; connectivity along county boundary improvements; linear referencing on county roads; topology corrections

Morgan: topology corrections

Rich: updated entire dataset; geocoding improvements; connectivity along county boundary improvements; topology corrections

Salt Lake County: Update from Salt Lake County received 2/26/08; updated new roads; updated Emigration Canyon area

San Juan: updated entire dataset; geocoding improvements; connectivity along county boundary improvements; linear referencing on county roads; topology corrections

Summit: CFCC field improvements; major highway attribute improvements

Uintah: miscellaneous numeric road names and address ranges corrected/updated

VECC: update from VECC received 2/7/08: updated entire dataset 'SaltLakeVECCCitiesStreets'; updated Emigration Canyon address ranges in 'StatewideStreets'

Wayne: updated entire dataset; geocoding improvements; connectivity along county boundary improvements; topology corrections

Weber: update from Weber County received 2/20/08; updated entire dataset with the exception of major highways; major highway attribute improvements; topology corrections

Miscellaneous: improvements to I-70 attributes

Blue Stakes of Utah Feedback:

Davis: addressing/geocoding improvements ('Schick Lane' not resolved)

Iron: addressing/geocoding improvements (Stansbury Park addresses need more work)

Tooele: addressing/geocoding improvements
